

1. Instalar un editor de páxinas web e Javascript/Typescript, neste caso Visual Studio Code.

Achego unha captura do Visual Studio Code instalado no meu equipo. Non amoso capturas de instalación dado que xa o tiña do curso anterior instalado.

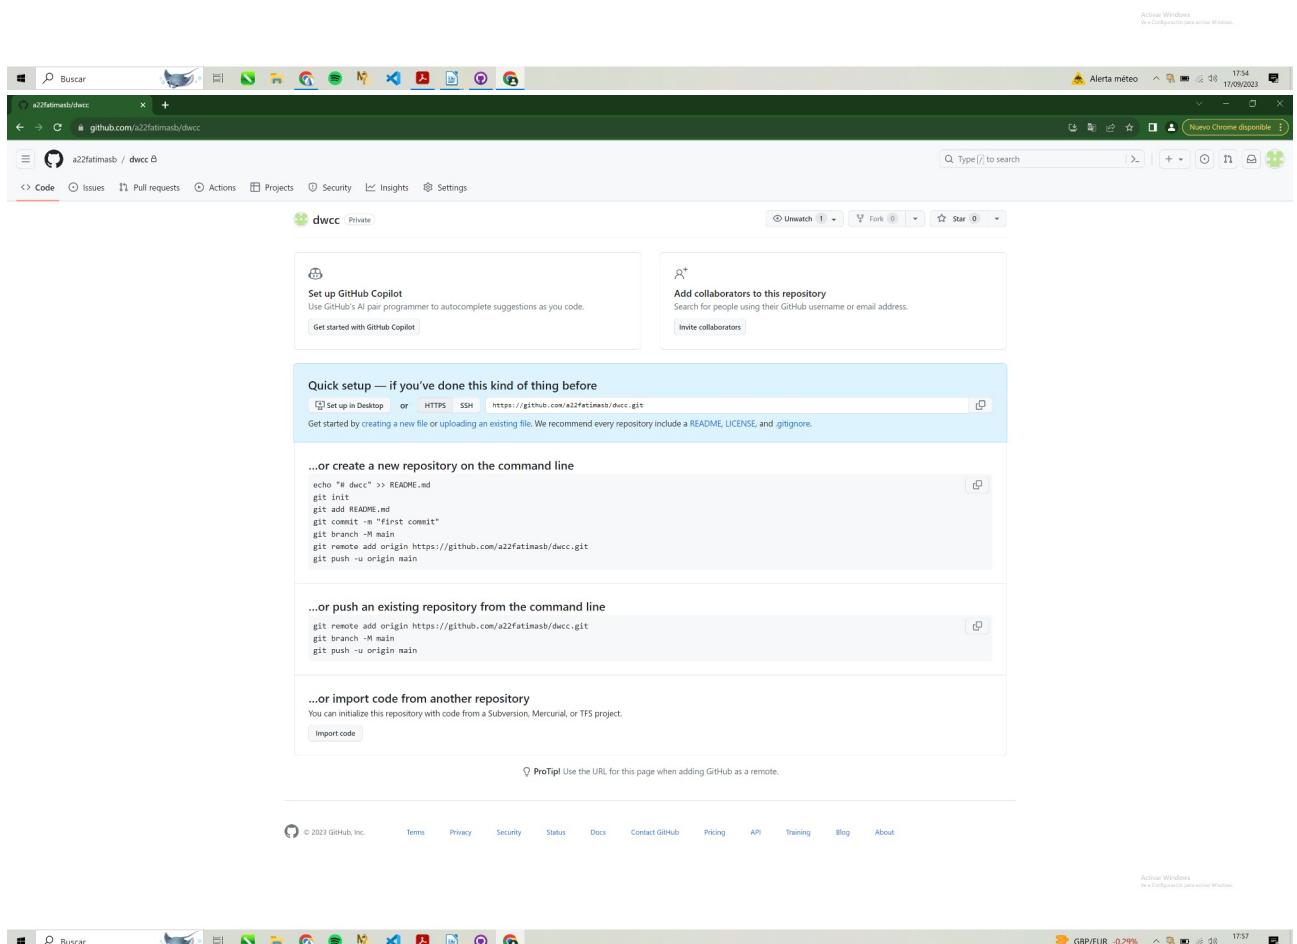

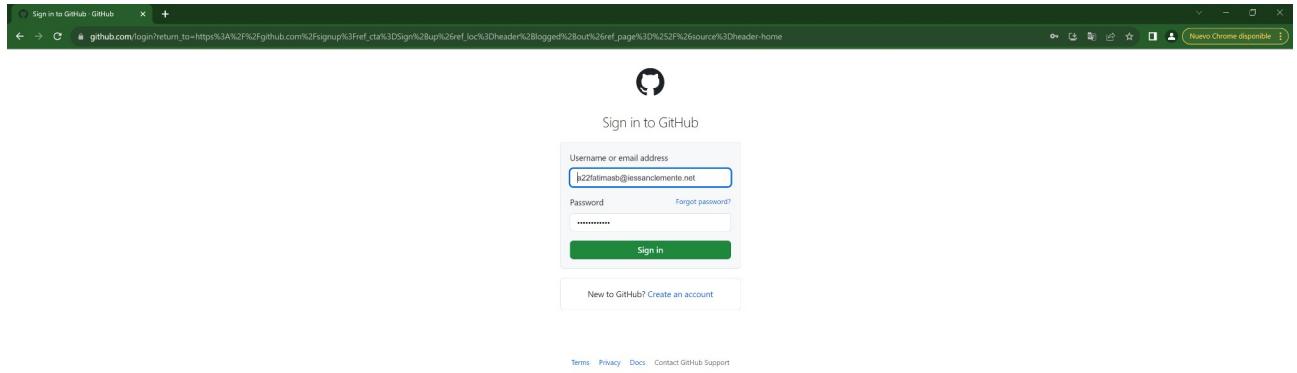

2. Instalar Git.

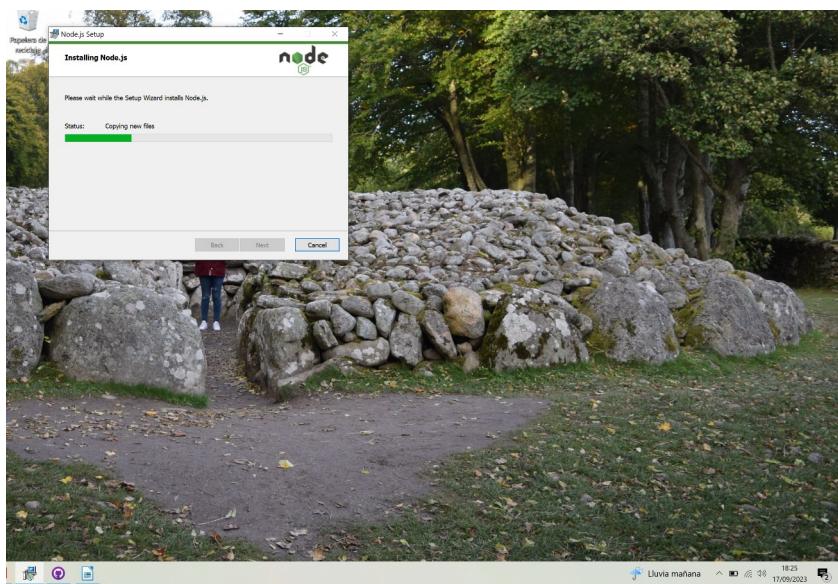

O mesmiño que no apartado anterior.

3. Crearte unha conta en GitHub tal e como se recolle no documento de Recursos Complementarios.

4. Instalar node, nvm, npm,... tal e como se recolle no documento de Recursos Complementarios.

5. Crea un “Ola Mundo” ben sinxelo en Javascript e, tamén, en Typescript.

The screenshot shows a Windows desktop environment with three open windows:

- Command Prompt Window (Top Left):** Shows the command `tsc ficheiro_1.ts` being run in the directory `C:\Users\Fátima\Documents\DAW\2_anو\Desenv_Web_contorno_cliente\dwcc`. The output indicates successful compilation: `(c) Microsoft Corporation. Todos los derechos reservados.` and `C:\Users\Fátima\Documents\DAW\2_anو\Desenv_Web_contorno_cliente\dwcc>`.
- File Explorer Window (Top Right):** Shows a file list in the folder `Desenv_Web_contorno_cliente\dwcc` containing two files: `ficheiro_1` (Archivo JavaScript, 1 KB) and `ficheiro_1` (Archivo TS, 1 KB). Both files were created on 17/09/2023 at 18:48 and 18:33 respectively.
- Terminal Window (Bottom):** Shows the command `node "C:\Users\Fátima\AppData\Roaming\npm\node_modules\typescript\bin\tsc" ficheiro_1.ts --watch` being run in the same directory. The output shows the compilation starting in watch mode and finding 0 errors: `[18:45:56] Starting compilation in watch mode...` and `[18:45:57] Found 0 errors. Watching for file changes.

6. Eres capaz de enlazar o repositorio de GitHub anterior ao Visual Studio Code?

The screenshot shows the Visual Studio Code interface with a GitHub repository named 'dwcc' open. The 'Changes' tab is selected, showing two changed files: 'ficheiro_1.js' and 'ficheiro_1.ts'. The 'ficheiro_1.js' file has one change: '+console.log("Olá Mundo");'. A commit message 'actualización ficheiro_1' is entered in the commit message field, and the 'Commit to main' button is highlighted in blue.

```
+console.log("Olá Mundo");
```

actualización ficheiro_1

Description

R+

Commit to main
